Instructor: Aniket Baksy * ,Matteo Leombroni

Response Rate: 41/52 (78.85 %)

5 - What skills or knowledge did you learn or improve from this instructor?

Aniket Baksy

Response Rate 13/52 (25%)

- · Super helpful TA that knows what he's doing!
- Intro to macroeconomics models and concepts.
- · Macroeconomic concepts and how to answer questions
- · Aniket was the strength of ECON 52. Without him, I would not have understood half of the material.
- · You basically taught me the whole Econ 52, so I would say everything
- Honestly wish I was able to go to section more this quarter, his midterm review section was very helpful and he's super passionate about the material. Honestly wished he was the one teaching the class he would be great at it.
- I cannot say enough good things about Aniket and his ability to teach this content in a way that is understandable and relatable. In my opinion, Aniket should be teaching this course! He got me through it. To be fair, Patrick has a lot of valuable insight that could be compressed into a few guest lectures.
- · economic thinking
- · My understanding of household and firm optimization greatly improved.
- · Aniket helped me better understand concepts and class problems.
- · Langrange optimization, key equations, general understanding of models
- literally everything I learned in this course, I learned partly because of Aniket's notes and the sections. The notes were a lifesaver, thank you! sections were a great help every time, whether they were led by Aniket or Matteo
- · So much

6 - What aspects of this instructor's teaching were most helpful to you?

Aniket Baksy

Response Rate

11/52 (21.15%)

- Kind and humorous Always enthusiastic about the material and good at explaining concepts Open to questions and good humored Made an otherwise unbearable course somewhat good for me!
- Aniket's notes were detailed and absolutely necessary to surviving this class. His explanations were clear and helpful, especially when he retaught key concepts and equations that were not adequately covered in lecture. Thank you for all your hard work!
- Explaining the math in great detail Focussing on both the quantitative rigour as well as the economic intuition The notes! And the extra credit problems too
- forthcomingness
- Great Slides, clear explanations, great pacing.
- Thanks for being so emotionally supportive all the time
- · Aspect 1: Consistent office hours
- organization during sections, openness to questions, simplification difficult topics
- good at explaining models, approachable, really clear notes and examples
- Great at distilling complex topics, being straight to the point
- · Aniket is great! Thank you for being well-prepared in section, breaking topics down into simple terms, and staying late to help students.

7 - How can this instructor's teaching be improved?

Aniket Baksy

Response Rate

9/52 (17.31%)

- Nothing really :)
- NIL
- At times, it felt as though he forgot we are all undergraduate students being first exposed to macroeconomics. And it is understandable given that research often required much higher levels of understanding. But, it would be great to approach students with as much simplicity as possible.
- N.A. Thank you for being a far better teacher than Patrick!
- please don't encourage students to throw up
- N/A
- · Aspect 1: Consistency in explanations of concepts
- N/a
